PROFILE SUMMARY

Motivated and detail-oriented graduate with a strong foundation in Python, HTML5, CSS, JavaScript, TypeScript, Bootstrap, and MySQL. Proficient in using Git, GitHub, and VS Code for coding and collaboration, with project experience in machine learning and deep learning applications such as fraud detection and currency recognition. Skilled in MS Office tools (Word, Excel, PowerPoint), with strengths in problem-solving, teamwork, and adaptability. Eager to leverage technical expertise, quick learning ability, and strong communication skills to contribute effectively to organizational growth.

EDUCATION

Bachelor Of Technology, Electronics and Communication Engineering	2021 - 2025
Sri Indu College of Engineering and Technology	CGPA: 7.77/10

TECHNICAL SKILLS

- **Language-** Python, HTML5, CSS, JavaScript, TypeScript
- **Tools-** GitHub, VS Code, Git
- **Framework:** Bootstrap, Tailwind CSS,
- **Database:** MYSQL
- **Common skills:** MS word, MS Office, Power Point, Excel

PROJECTS

CREDIT CARD FRAUD DETECTION USING PYTHON

- Built a real-time fraud detection system using machine learning to identify suspicious credit card transactions and prevent financial loss.
- Utilized classification algorithms (Random Forest, Neural Networks) and applied SMOTE to address class imbalance (284,807 transactions, 492 fraud cases).
- Reduced false positives to $<0.2\%$, maintaining user experience and minimizing unnecessary alerts.
- Enabled fraud detection with an average inference time of $\sim 120\text{ms}$ per transaction for real-time deployment.

CURRENCY RECOGNITION SYSTEM USING CNN ALGORITHM

- Designed and implemented a deep learning-based currency recognition system using TensorFlow and OpenCV to accurately identify and classify banknotes.
- Built a Convolutional Neural Network (CNN) to extract and learn features such as size, color, texture, and embedded security elements from currency images.
- Applied OCR and edge detection techniques using OpenCV to enhance the recognition of serial numbers and note boundaries.
- Trained the model on a diverse dataset of real-world currency images, achieving robust performance despite variations in lighting, wear-and-tear, and orientation.

INTERNSHIP

Seeking a Frontend Developer Internship at Gwing to apply technical skills in web design and development, contribute to real-world projects, and enhance user experience through innovative, responsive, and accessible web solutions.

CERTIFICATE

- Received a Certificate in Python
- Received a Certificate in MERN stack
- Python foundation- Infosys
- Responsive Web Development with HTML5, CSS, JAVA SCRIPT - Infosys (Springboard)
- Data Analytics Job Simulation- Deloitte

Soft Skills

Good Communication | Teamwork and Collaboration | Adaptability & Quick Learning | Time Management | Patience
